Product data sheet
Power connectors

RD30 male cable connector, Contacts: 12+PE, 10.0 - 12.0 mm, unshielded, solder, IP65

Area
RD30 series 694
Order number
99 0717 00 13

Illustration
Scale drawing
Contact arrangement (Plug-in side)

You can find the component part drawing on the next page.

Technical data

General values
- Connector design: male cable connector
- Connector locking system: screw
- Termination: solder
- Wire gauge (mm): max. 1.00 mm²
- Wire gauge (AWG): max. AWG 17
- Cable outlet: 10.0 - 12.0 mm
- Upper limit temperature: 100 °C
- Lower limit temperature: -40 °C
- Customs tariff number: 85369010

Electrical values
- Rated current (40 °C): 6 A
- Rated voltage: 250 V
- Rated impulse voltage: 4000 V
- Pollution degree: 3
- Overvoltage category: III
- Insulating material group: III
- Insulation resistance: ≥ 10¹⁰ Ω
- EMC compliance: unshielded
- Degree of protection: IP65
- Mechanical operation: > 500 Mating cycles

Material
- Contact material: CuZn (brass)
- Contact plating: Ag (silver)
- Contact body material: PA (UL94 HB)
- Housing material: PA
- REACH SVHC: CAS 7439-92-1 (Lead)

Date: 2020-10-11 - Page 1 of 3

### Security notices

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

To protect against unintentional opening of the connector, the thread between the housing and the connector head must be secured with a suitable cyanoacrylate adhesive when used in circuits with voltages dangerous to the touch. This does not apply to connectors used in SELV and PELV circuits according to IEC 61140 (EN 61140, VDE 0140-1).

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

Plug connectors with enclosure protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre.

To lock the cable connector with the device connector, the threaded ring is tightened "hand-tight" (approx. 50 cNm).
